THE ATLANTA CONSTITUTION.

EVENING EDITION.

ATLANTA, GEORGIA, OCTOBER 28.

Editorial Correspondence.

DALTON, Oct. 27, 1869.

This morning Winter gave a genuine blast. Water froze out of doors. Shivering was the fashion. The lungs puffed out the visible smoke that testifies that cold weather is on hand.

I have had the pleasure of meeting the editorial brethren of the Citizen, the good Weekly published here. Mr. Whitman runs the heavy, and Mr. Wrench the local department of the paper. Both are practical printers and set up in type their own matter. Probably no paper in the State is run more economically. The sheet is an excellent specimen of tasty typography.

Court is running rapidly through its business. No cases of overpowering importance.

I am pleased to notice one feature of Court management, that seems to me eminently proper. Immediately after the war large numbers of damage suits were brought for war injuries. A great deal of rancorous politics was mixed up with them, and they contained a liberal sprinkling of personal vengeance. Soldiers, on both sides, under orders of superior officers, did hard things occasionally. Nothing has more tended to keep alive the animosities of the struggle than these same actions, that stimulate hard feelings through the mighty agency of interest. Laws were passed on both sides exempting men from liability where they acted under orders from a higher power.

This killed the majority of these suits. Parties were injured in property, but it was due to the war. Still, some stray cases stuck to the dockets. The question of authority was more dim, and other causes were at work connected with the uncertainties of the law, and less of proof. Whenever possible, vengeful plaintiffs have shown grim tenacity in clinging to the slim hope of compensation for their misfortunes.

The true policy of the Legislature and Courts, has been to blot out this whole class of legal squabbling. The interests of the country, and the harmony of the people have required this.

Judge Parrott, has seemed to help the idea fully, and I have observed a disposition to give the most liberal construction to the law, in getting all such matters off from the dockets. It is the right spirit, and a good move in the burial of war hatreds, and the revival of good feeling.

THE ORIGINAL OF CAMILLE.

Everybody knows that a famous (or rather infamous) Paris lorette, Marie Duplessis, was the model from which M. Alex. Dumas Jr., drew La Dame aux Camelias, a novel which has furnished plays and an opera book ("La Traviata"). While she was in the morning of her beauty (it never reached its meridian), Vidal painted an exquisite likeness of her. He took her just after leaving a bath, and before her chambermaid had repaired its negligences. A light, white Algerian bornous was folded around her; on her crossed legs her clasped hands negligently rested; while her profuse black hair, unfettered by comb, or ribbon, or plait, tumbled from her shoulders to the floor. Vidal represented the legs bare. After her death, some friends persuaded the family that there was impropriety in this nudeness, and they applied to some artist to cover it. Luckily he possessed taste and skill. He lengthened the bornous to make a wrap the whole figure. This picture was bequeathed by Marie Duplessis to her only sister, a peasant's wife, who had never quitted their native hamlet. This sister, requiring money to establish her children, has sent the portrait to her notary's office—M. Delaporte, at Vimoutiers—to be sold. He has already refused $6,000, gold, for it.

II.

THE MORMON METHOD OF MARRIAGE.

So implicitly do the people of Utah Territory believe in their religion and the doctrine of marriage and polygamy is preached by Brigham Young and his self-appointed apostles, elders, and bishops, that in many cases men take wives merely as matter of form, and a young girl over seventeen years of age who is unmarried, is not considered a good member of the church, and is looked upon with horror by her companions. When a man marries one member of a family where there are younger sisters, he enters into an agreement to marry each as she becomes of age, and, with the full consent of the parents and all relatives concerned, ofttimes takes her into his own house to instruct her in the duties of married life. This is of daily occurrence. In nearly all the poorer families of Mormans, if they have only a roof over their head, and the wife has many sisters, the husband almost immediately endeavors to make accommodations for them. By dint of perseverance and frugality, he manages to accumulate a sufficiency to be married and support the next sister arriving at maturity. Thus it continues, from one to the other, until all are married, when they separate to different houses, and with jealousy and envy watch each other's advancement.

WOMEN WRITERS MONOPOLIZE THE ENGLISH MAGAZINES.

It has been noticed in England, and indeed it is a noticeable fact, that almost all the magazine literature of England is monopolized by lady writers. Two of the magazines are edited by ladies—the St. James Magazine, by Mrs. Roddell; and the Argosy, by Mrs. Henry Wood; both of these ladies also are writing for Tinsley's Magazine. There is another monthly, the Packet, which Mfss Yonge edits; and Mrs. S. C. Hall assists her husband in running the Art Journal. MacMillon's Magazine of last month, besides the extraordinary article from the pen of Mrs. Harriet Beecher Stowe, contained articles from Mrs. Alloch-Craik, Miss Olney, and Hon. Mrs. Norton. The leading story in Temple Bar is by a lady, and Mist Edward's "Debenham's Vow" is the principal in Good Words. Even the Contemporary Review opens its columns to Miss Emily Davies, and a lady has an article on Bells in the Churchman's Shilling Magazine. There also seems an inclination on the part of gentlemen requiring private secretaries or amanuenses to employ ladies. Sir Charles Lyell, the geologist, employs one, and Sir Francis Goldsmith's secretary, another lady, has translated "Scheiermacher."

SINGULAR DISCOVERIES IN ARIZONA. Commissioner Wilson, of the General Land Office, has just received returns of the survey of the township and section lines of five townships on the Gila river, in Southern Arizona, containing 105,252 acres of agricultural and grazing lands, bearing evidence of having been formerly under a high state of cultivation for centuries, and abounding in ruins of elaborate and sometimes magnificent structures, together with relics of obliterated races possessing considerable knowledge of the arts and manufactures.—*Washington Star.*

MARK TWAIN.

How he Celebrated certain Birthdays.

While upon his trip to Niagra, Mr. Twain met a British officer, with the following result. He says:

At the principal hotel I fell in love with the Major of the Forty-second Fusileers, and a dozen other hearty and hospitable Englishmen, and they invited me to join them in celebrating the Queen's birthday. I said I would be delighted to do it. I said I liked all the Englishmen I had ever happened to be acquainted with, and that I, like all my countrymen, admired and honored the Queen. But I said there was one insuperable drawback—I never drank anything strong upon any occasion whatever, and I did not see how I was going to do ample and proper justice to anybody's birthday with the thin and ungenerous beverages I was accustomed to. The Major scratched his head, and thought the matter over at considerable length, but there seemed to be no way of mastering the difficulty, and he was too much of a gentleman to suggest even a temporary abondonment of my principles. But by-and-by he said:

"I have it. Drink soda-water. As long as you never drink anything more nutritious, there isn't any impropriety in it."

And so it was settled. We met in a large parlor, handsomely decorated with flags and evergreens, and seated ourselves at a table well laden with creature comforts, both solid and liquid. The toasts were happy and the speeches were good, and we kept it up until long after midnight. I never enjoyed myself more in my life. I drank thirty-eight bottles of soda-water. But do you know that this is not a reliable article for a steady drink? It is too gassy. When I got up in the morning I was full of gas and as tight as a balloon. I hadn't an article of clothing that I could wear except my umbrella.

After breakfast, I found the Major making grand preparations again. I asked what it was for, and he said this was the Prince of Wales' birthday. It had to be celebrated that evening. We celebrated it. Much against my expectations we had another splendid time. We kept it up until some time after midnight. I was tired of soda, and so I changed for lemonade. I drank several quarts. You may consider lemonade better for a steady drink than soda water, but it isn't so. In the morning it had soured on my stomach. Biting anything was out of the question—it was equivalent to lockjaw. I was beginning to feel worn and sad, too.

Shortly after luncheon, I found the Major in the midst of some more preparations. He said this was the Princess Alice's birthday. I concealed my grief.

"Who is the Princess Alice?" I asked.

"Daughter of her Majesty, the Queen," the Major said.

I succumbed. That night we celebrated the Princess Alice's birthday. We kept it up as late as usual, and really I enjoyed it a good deal. But I could not stand lemonade. I drank a couple of kegs of ice water.

In the morning I had the toothache and cramps and chilblains, and my teeth were on edge from the lemonade, and I was still pretty gassy. I found the inexorable Major at it again.

"Who is this for?" I asked.

"His Royal Highness, the Duke of Edinburgh," he said.

"Son of the Queen?"

"Yes."

"And this is his birthday—you have not made any mistake?"

"No the celebration comes off to-night."

I bowed before the new calamity. We celebrated the day. I drank part of a barrel of cider. Among the first objects that met my weary and jaundiced eyes the next day was the Mayor, at his interminable preparations again. My heart was broken and I wept.

"Whom do we mourn this time?" I said.

"The Princess Beatrice, daughter of the Queen."

Here, now," I said; "it is time to inquire into this thing. How long is the Queen's family likely to hold out? Who comes next on the list?"

"Their Royal Highnesses Anne, Mary, Elizabeth Gertrude, Augusta, William, Simon, Ferdinand, Irene, Sophia, Susannah, Socrates, Sampson, ——"

"Hold! There's a limit to human endurance. I am only mortal. What man dare do, I dare! but he who can celebrate this family in detail, and live to tell it, is less or more than man. If you have to go through this every year, it is a mercy I was born in America, for I havn't constitution enough to be an Englishman. I shall have to withdraw from this enterprise. I am now out of drinks. Out of drinks, and thirteen more to celebrate. Out of drinks just on the outskirts of the family, as you may say. I am sorry enough to have to withdraw, but it is plain enough that it has to be done. I am full of gas, and my teeth are loose, and I am afflicted with scurvy, toothache, measles, the mumps, and lockjaw, and wrenched with cramps, and the cider last night has given me the cholera. Gentlemen, I mean well, but really I am not in a condition to celebrate the other thirteen."

Give us a rest.

Mr. C. informed them that he had none, whereupon they placed a pistol to the back of his head and fired. Through the providential aid of an Allwise God, who had not destined Mr. Cody to die at the hands of Yankee assassins, the ball missed its mark. Jerry Bland, colored, of Burke county, owed a merchant $2 50. Came to Augusta and purchased $72 worth of goods. Ellis Lyons, one of Bullock's Notary Publics, at instance of merchant attached the goods. The alleged ground upon which the attachment was issued is recited in this model document to be, that the defendant (Bland) was a non-resident of Richmond county, the very good and sufficient reason, under the provisions of the law and the rules of honest, legal practice, why such a process should not have been granted—no allegation having been made that the defendant was about to leave the State, or that he was attempting to place his property beyond the reach of ordinary legal process. The Constable threatened the poor darkey with imprisonment in jail unless he settled promptly. Not having the money, he left the goods in charge of a white boy, and procured it. He was charged $5 for costs—the law allowing only $1 65. On his return to the Depot his goods were gone. The Constable has been arrested under a possessory warrant for the goods, and another for official extortion. [*Augusta Constitutionalist.*

Is it any wonder that the poor darkey is acting with the white race? They are learning, by bitter experience, who are their friends.

DER VATER HYACINTHE.

Our Reporter Intervieweth Him, and He Discourseth on Sublunary Affairs.

The now famous Carmelite monk, who dropped upon astonished Manhattan so suddenly the other day, after setting Paris in a blaze, and who has been since interviewed, dissected, and almost forced to declare his "policy" and define his position by the inexorable and unconquerable reporters of the metropolitan press, has at last emerged from the shell of reticence and mystery in which he encased himself, and has unbosomed himself freely and unreservedly to the representative of the Telegram, who was fortunate enough to obtain an interview with him yesterday at his sumptuous apartments in the Fifth Avenue Hotel. The worthy father had just returned from a prolonged visit to our beautiful Park, and probably the exhilarating influence of such a drive had the effect of making him more communicative than ever. After a short conversation on ordinary topics, our reporter gradually approached more interesting subjects, and first asked the reverend father what he thought of the improvements going on in some of the up-town wards.

One Act.

One act often secures for obscure men a world-wide and lasting renown. Brutus kills Cæsar, and lives in Roman annals.

Diogenes takes up his abode in a tub, and secures renown by his oddity.

Harvey discovers the circulation of the blood, and writes his name indelibly on the page of medical science.

Luther resists the Pope and doffs the Dominican attire, and bounds from obscurity to the heights of fame and renown.

Columbus discovers America, and secures a continent for his monument.

Arnold betrays his country, and becomes the synonym of treachery and meanness.

Boothe kills Lincoln, and sends his name over the world.

And now the eloquent Hyacinthe announces that he can not longer take orders from the Papal See, and his name rings throughout Christendom.

THE CUBAN WAR.

A Romantic Story from the Revolutionary Camp.

NEW ORLEANS, October 21, 1869.—A gentleman who arrived in this city last night, on the brig Rosas, from Porto del Rey, states that a regiment of black horse cavalry has been recently organized under General Jordan, and that it is creating havoc among the Spaniards.

It is commanded by Colonel Lawrence Orton Williams, who has been for the last six years believed to have been executed as a spy at Franklin, Tennessee, in 1863, by a United States drum-head court-martial. It seems that he was not executed, having been smuggled out of the country by old army friends, and conveyed to Cuba, where he settled and married a wealthy creole, and has since lived in affluence. His regiment of patriots is made up of negroes, mounted on black horses, and is said to be not inferior to Forrest's original squadron.

Colonel Williams is known as Don Immanuel Orton. His rank is Brigadier-General. He sent his wife to Europe in September, and has enlisted for the war, contributing his entire fortune, which is very large.

For six years he has lived on a ranche near Santo Malo, which his wife inherited soon after her marriage.

JUDGE LOVERING.

Graphic Sketch of a "Hard Featured old Cuss."

Mr. Davis, of the Iuka, Mississippi, Gazette, was lately at Jacinto in that State, where he saw Judge A. A. Lovering, formerly of Indiana, later of Nashville, and now one of General Ames' appointees. The following is Dr. D's opinion of the Judge:

We saw Judge Lovering, of Illinois, in the Judges' seat, sleeping quite soundly, while we were present—presume he had made up his mind in regard to the case, and didn't care to hear the pleadings. Cæsar said, "let me have men about me that are fat—sleek-headed men, and such as sleep o'nights." we presume Ames prefers men who sleep o'days and do Radical devilment at nights, though really, we have changed our opinion of Lovering since we have had a good view of him—we now think him more fool than knave, in fact, unless physiognomy is a humbug and phrenology a fraud, his Honor is scarcely ratfonal. His head is about as large as a coon's and recedes so rapidly from the root of his nose, that if a stream of water were poured perpendicularly upon his brow, more of it would run off the back of his head than off his face. His organs of intellection, if he ever had any, have vacated and taken up their abode in the posterior part of the brain, which makes the cerebellum appear like a market basket hung to the back of the head. His teeth seem to be all gone, and his gums "closed up" to keep his chin out of danger. His nose looks like the butt end of a blood beet, and eyes look like augur holes in a musk-melon rind. Taken altogether, he is a hard-featured an old cuss as ever was imported for Radical purposes into the South.

WITHOUT THE NEWSPAPERS.—Capt. Hall, the Arctic explorer, during his five years' absence among the Esquimaux, naturally got rather behind hand in his knowledge of what was going on in civilized quarters, and since his return to New York has been busily occupied reading up the files of the World in order to inform himself of what has transpired in this long hiatus. It is difficult to realize what condition a man must be in who is ignorant of the completion of the Atlantic cable and Pacific Railroad, and had never heard of the war in Spain, the Cuban revolution, the international boat race, and a hundred other events which are now familiar to every schoolboy. But, on the other hand, it is some compensation for this loss of Capt. Hall's to know that he has escaped some trials. He has not had to witness President Grant's attempts at Cabinet making, nor our financial muddle. He has missed knowing of even the existence of the Boston Coliseum, and has not been under the necessity of reading either Parton's defense of the Washington lobby, Mrs. Stowe's Byron scandal, nor, last, but not least, Horace Greeley's articles on political economy. As the Italian criminal mentioned by Macaulay preferred the galleys for life to reading through the works of the historian Guicciardini, so Capt. Hall would undoubtedly spend another five years among the icebergs rather than read Mr. Greeley's profound disquisitions.—*N. Y. World.*

A PROCLAMATION.

GEORGIA:

By Rufus B. Bullock, Governor of Said State.

Grateful for the gracious goodness of the Great Creator, vouchsafed to us during the seasons now closing with the gathering of fruitful crops for the Husbandman; with ample rewards for the Merchant and the Artizan; and with health prevailing among all our inhabitants:

Let all the people of this State, singly or in assembly, laying all business aside, devote THURSDAY, THE EIGHTEENTH DAY OF NOVEMBER NEXT, to Thanksgiving and Praise to Almighty God, for the great mercies and blessings which we have enjoyed; and unite in prayer that we may be worthy of a continuance of His goodness.

Given under my hand and the great seal of State, at the Capitol, in Atlanta, this 25th day of October, in the year of our Lord, Eighteen Hundred and Sixty-Nine, and of the Independence of the United States the Ninety-Fourth.

MORNING EDITION.
ATLANTA, GEORGIA, OCTOBER 29.

THE TWO MEETINGS.—Although there is seemingly a clash between the meeting called for to-night, and that called for Monday night, yet, really, there is none. The meeting for to-night is to consult on the means best adapted to bring out as candidates our best men, and as general opinion has settled down on Ward meetings, to nominate candidates for Aldermen, and appoint delegates to a general convention to nominate a candidate for Mayor, both meetings can act harmoniously and in accord together.

Andy's Defeat.

The saddest feature connected with Andy Johnson's defeat is the squelching effect it is said to have had on the great Spoons' Senatorial hopes.

In the event of Andy's election, Butler, it was said, would be returned to answer him when he was making Radicalism "howl." A sort of scavenger duty was thus to have been given to Benjamin—a duty highly congenial to his noble soul. He was to clean away the uncleanness shown up by the pugnacious and vengeful Andy on the sinful Radicals.

Poor Ben weeps in disappointment. His strabismic organs of vision flow streams of tears. No spirit but one as indomitably dirty as Ben's could stand the disagreeable savor of Andy's revelations.

We are sorry for Spoons. But his mighty powers of filth can still find a theme in the wandering Chairman of the Ways and Means Committee, the redoubtable Schenck. This will keep Benjamin in practice until old Brownlow takes flight for his native regions of more than torridian warmth, and Andy steps into his vacant seat.

Every dog must have his day. Butler's will come when he has a showing at Andy on the battle ground of Radicalism.

☞ General Butterfield has denied the charges against him of complicity in the gold fracas. It is said Mr. Boutwell will order an investigation into the matter. Butterfield is an army officer and is Assistant Treasurer of the United States. The proof is strong against him. The assertion of innocence is natural.

There is one ominous feature connected with this matter. The New York Grand Jury has had the matter before them, and have been urged to indict the guilty parties who have thus trifled with the commercial interests of the country by their wicked combinations and manipulations. The government authorities have tried to check this legal investigation

To the press is due the credit of searching the matter home.

Fisk's Opera House has been attached, and in the legal steps taken Fisk has cut up some characteristic didoes. This lively individual it seems, has a wife, though it was not generally suspected. He is separated from her, and yet lives harmoniously and happily with her. He lives both in New York and in Boston, in New York for some purposes, in Boston for others. He lives in Boston all the time when his New York property is to be nabbed by any ridiculous and grasping creditor, who is absurd enough to want his own truck out of the mighty Fisk.

Oh! that Fisk!

Woman's Rights in Austria and Russia.

It would seem says the London Daily News of Sept. 25, that Mr. John Stuart Mill has triumphed in at least one European capital. Austria used to have a name for despotism, and the rigid adherence to ancient usages. It is now in many respects quite radical in its tendencies. If we may credit the local and special correspondent of the Independance Belge, the municipal body of the town of Vienna has decided that 7,000 women inhabiting the town, paying its taxes, and otherwise complying with all legal conditions, shall be admitted to the right of an elective vote. The most curious part of the affair is the comparatively speaking unconcern of the male population of Vienna. In this respect however Austria is as England. In the last session of Parliament a precisely similar extension of the municipal franchise to women was made without exciting even the faintest opposition. Many in this country have not been aware that the question of woman's rights was at all considered in Austria.

A correspondent writes to the London Daily News of Sept. 24: It may be of interest to those of your readers who are interested in the "Woman Movement" to learn that even Russia is becoming excited on that subject. Mr. Mill's work on "The Subjection of Women" is enjoying a wide circulation in this country, and three extended reviews of it, all highly approving its sentiments, have recently appeared in the journals of Moscow at St. Petersburg. It is proposed to hold a grand Woman's Rights Convention at St. Petersburg, to which Mr. Mill—a sympathetic letter from whom to some feminine reformers of that city has already been published—is to be invited. It is even claimed that the Czar himself is not unfriendly to the principle of the equality of the sexes, and, at least, there has been thus far no public manifestation of any objection on his part to the agitation which has already given rise to one public meeting.

UP IN A BALLOON.

Professor La Mountain's Recent Ascension in Michigan—Explosion of the Balloon Nearly Three Miles Above the Earth—Wonderful Escape from Death.

From the Saginaw (Mich.) Enterprise.]

On the occasion of Professor La Mountain's recent balloon ascension from Bay City he met with a terrible adventure, and very narrowly escaped death. The balloon was filled before starting to its utmost tension, but, owing to recent repairs, leaked badly, so that after one or two unsuccessful attempts, Mr. Headley, who was to have accompanied Professor La Mountain, was obliged to get out of the car. Mr. H. had the eatables, instruments of observation, and tissue-paper used to ascertain the ascending and descending force of the balloon, and as he stepped out of the car, before he could transfer the articles named, those who had hold of the car let go, and the balloon shot up with the rapidity that carried it to an altitude of two miles within a few minutes. A perfect gale of wind was blowing at the time, and a moment after rain and sleet commenced falling. The balloon was still ascending when lost to sight in a cloud. Professor La Mountain, in relating his experience, says that it became all at once intensely cold. The cloud he entered was one swimming mass of snow-flakes, interspersed with rain, which formed a frost-work on the netting of the balloon. The cloud, with the snow-flakes flying hither and thither, had, as he expressed it, the appearance of a cloud of steam through which the sight could not penetrate. The earth was lost to view. By tearing up his handkerchief and throwing out shreds, he became conscious that he was passing upward with wonderful rapidity, and along with the current of the air eastward toward the lake. Nothing was discernible but the thickening mist, and overhead his balloon, which, as the air became lighter, had expanded the thin cloth covering to its utmost length. Fearful that he might be carried into the lake, and without a pound ballast to regulate his descent, he reached for the valve rope with the intention of lowering himself gradually. To his surprise the valve would not open. The rain and sleet accumulating on the top of the balloon had frozen the valve so tight as to resist the pressure from below. Putting his whole strength to the task, he gave a strong pull on the rope, pulling out the iron staple attaching the rope to the valve, the rope falling down into the car. The balloon was mounting up faster than ever. It had passed the storm cloud, which was a mile below, and the heavens above were as clear, and the sun shining as bright, as a midday in June. But the air was very cold, and La Mountain was benumbed with cold. But little time was lost in speculation. He had attained a height of over three miles. The balloon could not burst, for when the expansion became too great the gas could escape from the flue or valve below, which was open; but he was fearful of being carried into or over the lake without having made preparations for such an event. Mounting the hoop overhead he reached for his knife only to find that he had left it on the ground. Clinging to the rope with one hand, with the other and his teeth, after some exertion he succeeded in tearing a rent in the balloon from the bottom ten or fifteen feet upward. Then serving the opposite side the same way, he descended to the car to watch the progress. During this operation the ends of the fingers of both hands had become frozen. For a few minutes the balloon kept ascending, and then, as the gas escaped, it reached an equipose, and a moment after commenced gradually to descend to the earth. Every instant increased its downward speed. The Professor says that he heard the cloth tearing, the rents enlarging, until, with a crash that sounded like a death-knell, the cloth gave way to the pressure, opening a seam on both sides from the bottom to the top. The gas escaped instantly, leaving not a thousand cubic feet, while the air rushed in, filling up the vacuum, the balloon acting as a parachute. The Professor gives it as his opinion that, at the height of two miles there was not a foot of gas in the balloon. The cloth, bellying out, formed a strong resistance to the atmosphere and retarded the descent. He remembers distinctly passing through a cloud, and the sensation on regaining sight of the earth. He has an almost indistinct recollection of approaching the earth's surface. A dull moaning, like the surging of the waves greeting his ears, the flapping of the cloth became louder, and a moment after he became unconscious. On regaining his senses he found himself lying in the woods, and his balloon was some yards distant. Several persons who had seen the balloon descend had come to the scene and were standing near. They afterwards assisted him. His arms and legs were badly bruised, by, if not all, the women and children were lost, being burned to death. The conduct of the passengers and officers is said to have been heroic. Such an appalling scene has not been witnessed on the Mississippi for many years. The saved were kindly cared for by the officers of the Belle, of Memphis, and were carried to St Louis.

In an interview with the Assistant Engineer of the Stonewall, we get the following: The alarm of fire was given at 6:30 and in 10 minutes the boat was in a sheet of flame, and every person had deserted her, all that were lost were drowned, and none were burned. Of 11 women on board but 3 were saved. But one yawl was seen and that was taken possession of by some deck passengers. The last seen of Captain Scott, he was floating down stream on a log. The people at Neeley's saw the light and hastened to assist them. One man rescued 16 persons with a skiff.

NEW ORLEANS, Oct. 28.—The city authorities are now enforcing the ordinances in regard to weights of bread. Over one hundred bakers and dealers have been arrested for short weights since yesterday morning. Penalties imposed consist in fines and confiscation.

RICHMOND, October 28—Colonel John Burke, Inspector of Internal Revenue, and J. P. Justis, Wm. M. Justis, and R. T. Valentine, tobacco manufacturers, were arrested last night, charged with conspiring to defraud the Revenue, by means of counterfeit tobacco stamps. All were bailed for trial. The detectives last night, captured $8,000 worth of counterfeit tobacco stamps, in the case heretofore telegraphed of. The parties charged with the sale of bogus tobacco stamps, have all been sent on for trial except Stone, who is to be examined November 9th.

Charles A. Jackson, of Petersburg, was dismissed by the U. S. Commissioner, there being nothing to connect him with the utterance or use of counterfeit stamps.

The theater was sold to-day for $34,000, to Mrs. Elizabeth Magill, of New York.

The Agricultural Fair grounds are fast filling up. There are already four hundred head of horses and cattle on the ground, though the Fair does not commence till Tuesday. The Commissary Depot, a building fifty feet long, is already nearly full of specimens.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, Oct. 28.—Revenue receipts to-day $446,000.

The Court of Claims adjourned till the first Monday in December.

Gov. Low, of California, Minister to China, is here for instructions.

The Executive Committee of the Union League are here trying to raise funds to aid the extremists of Mississippi and Texas.

Customs from 18th of October to 23d, three quarters of a million. More than one million of acres added to the area cultivated for cotton.

Virginia tobacco will pay three millions tax this year.

Lawyers regard it certain that Yerger will be brought to the bar of the Supreme Court.

The President ordered all communications relative to Executive business to be forwarded to the appropriate departments, or no attention will be paid to them. Secretary Fish has issued a notice that no vacancies exist abroad in the State Departments.

ST. LOUIS, October 28.—Private dispatches say, that the steamer Stonewall, was burned forty-five miles above Cairo. Of the crew and passengers, numbering one hundred and sixty, but forty-three were saved.

Dispatches from Salt Lake, indicate a serious schism in the Morman Church. Stenhouse, editor of the Salt Lake Telegraph, and for many years Brigham Young's most staunch supporter, heads the defection. His daughter is one of Brigham Young's son Joseph's wives.

Details of the lost steamer, Stonewall, states that the vessel left St. Louis Tuesday evening, for New Orleans, heavily laden with passengers, horses, mules, hay, and other freights, and was burned to the water's edge. An effort was made to land, but the boat was so heavily laden that she could not reach nearer than 100 yards of the shore. Great confusion and terror prevailed. About 200 cabin and deck passedgers were aboard—large number being women and children. The flames spread rapidly, and scores of men jumped into the water, and attempted to swim ashore—nearly all were lost. The pilot, engineer, stoker, the carpenter, and forty-four passengers are known to be saved. The Captain, clerks, and other officers and many passengers were lost. All the books and papers of the boat were lost, as were all the cattle and other freight. Many persons died after reaching the shore, from exposure. Nearly, if not all, the women and children were lost, being burned to death. The conduct of the passengers and officers is said to have been heroic. Such an appalling scene has not been witnessed on the Mississippi for many years. The saved were kindly cared for by the officers of the Belle, of Memphis, and were carried to St Louis.

METHODIST CHURCH NORTH AND FREE MASONRY.—At the recent session of the East Gennessee Conference, the following resolutions were adopted, thirty-one ministers, including two presiding elders, voting for them. We do not think that Masonry stands in need of support from that Church, nor does it dread its opposition:

Resolved, That we disapprove of Free Masonry.

1. Because it creates disaffection and division in our charges and in our churches.

2. Because its associations do not aid religiously, and are derogatoty to a holy ministry.

3. Because preference, position, or gain is held out as an incentive to become Masons, directly or indirectly, and both sometimes.

4. Because no holy minister of Christ can affiliate with any organization which ejects the name of Christ, virtually denying Jesus, without being demoralized and degraded in his holy calling.

5. Because it brings Christians into juxtaposition and affinity with all classes of men, of whatever business, religion, or nation, frowning upon all exclusiveness.

6. Because Masonic love and sympathy toward a brother take the precedence of the love of Christ.

7. Because "Masonic oaths, obligations, and penalties are not reconcilable to the laws of morality, or Christianity, or of the land."

[*Macon Telegraph.*

☞ Referring to the horror caused by the Pantin murder in France, the New York Express says, that "the crime, monstrous as it is, is no worse than many horrible butcheries accomplished in this country during the war, and applauded as loyal and legal acts."

Just so. The cold-blooded murder of twelve men by General Niel, at Palmyra, far exceeded the French tragedy in enormity. There the men were drawn up in line in broad day light, and mercilessly shot down on suspicion of having murdered a man, who, it afterwards appeared, was not dead; and most horrible of all, among the twelve was a youth who volunteered as a substitute for a married man, who had a family dependent upon him. This butchery has no parallel.—*Petersburg Index.*

WOLFE'S SCHIEDAM SCHNAPPS AS A MEDICINE AND BEVERAGE.—As a general beverage, a necessary corrector of water rendered impure by vegetable decomposition or other causes, as Limestone, Sulphate of Copper, etc., the Aromatic Schiedam Schnapps is superior to every other alcoholic preparation. Its purity and exemption from all grossly intoxicating properties, combined with its mildly stimulating and invigorating elements, establish it as the only alcoholic beverage in our country that can be imbibed with pleasure and safety. The nervous torpor and debility which follow the administration of other alcoholic preparations and mixtures of the day, succeeded by their intense and painful nervous reactions, are unknown as the subsequent effects of the Schiedam Schnapps, even when taken so freely; while as a *Stomachic, a Tonic Appetiser*, it stands pre-eminent among the established curatives of the day.

A public trial of twenty years' duration, in every section of our country, of the Schiedam Aromatic Schnapps; its unsolicited indorsement by the medical faculty, and a sale unequaled by any other alcoholic distillation, have insured for it the reputation of purity and salubrity claimed for it by the proprietor on its original introduction to the public.

Put up in quart and pint bottles, handsomely wrapped in yellow paper.

For sale by all druggists, apothecaries and grocers in the United States.

RECEIVER'S SALE.

Lands, Valuable Mill and Water Power, Sufficient for Running a Factory.

GEORGIA MERIWETHER COUNTY.—By virtue of an order from the Hon. John S. Bigby, Judge of the Superior Court of the Tallapoosa Circuit, will be sold in the town of Greenville, in said county, on the first Tuesday in December next, within the legal hours of sale, all the real estate, including the Mill property, situated in said county, belonging to the estate of William Mitchell, deceased, consisting of the following described property, to-wit: Lot of land No. 169, half of Lot No. 187, on the north-side of Red Oak Creek, and 10 acres off of lot No. 188, lying north of said creek, and up to high water mark on the south side of said creek, all containing three hundred and twelve and one-half acres, more or less. Also two-thirds interest in a valuable Merchant Mill together with Mill and Water privileges. Also, the remainder of the widow's dower, consisting of lot of land No. 186, and one-third interest in said Mill, together with water privileges. All of the above described property situated in the 15th district of said county, about 7 miles north of Greenville, and about 3 miles south of Rocky Mount. The water power at said Mill, is said to be best in the county, and capable of running a Factory or other Machinery. There has been no lack of water during the recent unprecedent drought. Capitalists would do well to examine this valuable property before the day of sale, for this is certainly a fine opportunity for a good investment.

CHURCH DEDICATION.—The First Baptist Church will be dedicated on Sunday week, November 7th, by Rev. R. Fuller, D. D., of Baltimore. It will be an interesting occasion.

TURNER'S HALL TO-NIGHT.—A theatrical performance and a soiree comes off to-night at Turner's Hall, on Broad street. We wish our friends of the Turn Verein great success.

A Radical paper in Georgia is disgusted with artists who portray angels, that they have never attempted a little nigger angel.—*Exchange.* The above is a good joke, and we hate to spoil it by remarking that it came from the Columbus Enquirer.

AT HIS POST.—After a protracted absence, Major Benjamin Elliott Crane has returned to his post, and his genial face once more illuminates Change on Alabama street.

THE SCHOOL OF THE PROPHETS.—Rev. H. H. Tucker, will not be able to open the School of the Prophets this winter, as heretofore, at Mercer University. We trust that it will be still a school of *profits* to all concerned.

A FLUTTER.—We are reliably informed that a *rara avis* and a most charming one—flew through our city a few days since. Several young gentlemen, it is said, attempted to fly after it, but with what success we have not learned.

THAT FLOWER.—We return our grateful acknowledgments to the "fair one" who gave us that flower, and her kindness and loveliness will live in our memory long after its incense shall have departed and its beautiful leaves faded.

THE GRECIAN BEND.—Little Charlie, a bright-eyed chap of three summers, picked up a crooked pin the other day, and handing it to his mother remarked: "See here, this pin got the Grecian Bend."

AIR-LINE CONNECTION.—The Stockholders of the North Carolina Railroad, assemble at Raleigh, on November 11th. The Raleigh and Gaston Road offer to lease it for $240,000. Other roads are willing to give $300,000. The longest pole will take the persimmon.

REMOVED.—The Sunday School Banner, published in this city, has been bought by Rev. J. B. Jeter and Rev. A. E. Dickinson, and will be removed to Richmond, Va. While we regret to lose it from Atlanta, we rejoice to learn that it has gone into such able hands.

A BRIDAL PARTY.—On Tuesday, a party of ladies and gentlemen from Macon, passed through Atlanta, *en route* to Macon, on a matrimonial expedition. Several young Atlanta ites were present, each of whom looked very much as if he would not object to becoming *one of a matrimonial party.*

THANKS.—At the last meeting of the Ladies' Memorial Association, it was unanimously Resolved, That the thanks of the Ladies' Memorial Association of Atlanta, be tendered to the Georgia National Bank, of Atlanta, for the kindness and liberality displayed in making advances of cash, without interest, for re-interring the Confederate dead in the City Cemetery, from the vicinity of Atlanta—and that a copy of this resolution be published.

MISREPRESENTATIONS CORRECTED.—Rev. *W. T Brantley,* known and revered for his Conservatism and piety, in the Christian Index corrects the statement made by the Holy Ku Klux that "Northern Ministers are not admitted into Southern pulpits unless they are known to be in sympathy with the dead Confederacy." Dr. Brantley states the usual rule of all Evangelical Ministers when he says: "I would exclude from my pulpit no Baptist minister from any part of the country, in good standing at home—who came here to do the work of Christ—provided his preaching was, in my judgment, edifying to the people." Repeatedly since the war has Dr. Brantley invited Northern ministers to preach to his congregation, without holding any inquest as to their political opinions. The last instance was that of Rev. Dr. Armitage, of New York, who preached repeatedly in this city, and who also preached before the Southern Baptist Convention in Macon—a body composed of delegates from all the Southern States. Rev. Mr. Jamieson, of Illinois, Rev. Dr. Sears, late of Brown University, Rev. Dr. Babcock, of New York, and others from the North, have all occupied his pulpit since the war. Rev. J. W. Parker, D. D., of Massachusetts, a gentleman who would hardly be suspected of any "rebel proclivities," was cordially invited to preach, but owing to other engagements was unable to comply. A similar invitation was also extended to Rev. Lucious Hayden, D. D., of Connecticut. Rev R. M. Nott, now of Illinois, has been a useful and beloved member of the church, within the last three years—repeatedly occupying the pulpit.

OGLETHORPE COLLEGE.—The last Federal Union grows billious over the removal of Oglethorpe College to this city. That journal declares that a writer in THE CONSTITUTION who set forth the pecuniary advantages resulting to Atlanta from the removal of Oglethorpe College forgot the rights of Midway and Milledgeville, of which they would be robbed, should the College be removed: It says:

"The people around the College have been induced to move there, and purchase lots, and build houses, because the College was located there, just as the people of Milledgeville were induced to come to Milledgeville, build houses, hotels, boarding houses, and railroads, upon the pledged faith of the State, that the Capitol should remain there. But the people of Atlanta (or least some of them, for we do not accuse them as a body) by the most shameful fraud, corruption, and falsehoods, used to the negro convention and Congress, procured the removal of the Capitol to Atlanta; and, not satisfied with that, they are now trying to take away Oglethorpe College from those who have spent years of toil and thousands of dollars to build up that institution.

But the Atlantese always forget or ignore the rights of others. There are people in the Lunatic Asylum who imagine everything they see belongs to them; but they are considered insane, and confined as dangerous to society. There are others in the Penitentiary who had a bad habit of appropriating other people's property to their own use. They were called thieves, and considered wicked, and not fit to live among honest people, and therefore confined. To which of these classes do the appropriators of Atlanta belong?"

Well, our friends of the Union should not get vexed with us because the friends of the College want to increase its usefulness. The suggestion of a removal was never made by the people of this city. The subject is being discussed by Presbyterian Synods and assemblies. We have not attempted to influence their decision by decrying Midway, Milledgeville, or Macon. We have not sought to wrest the College from its present location. But when the subject of its removal is being agitated, it is proper and legitimate for us to say that if it is located here, we will donate liberally to it, without incurring the appellation of lunatics or thieves. The College is gravitating towards Atlanta from the force of circumstances. But should it be determined to locate it at either Macon or Milledgeville, it will not cause us to lose our temper or dignity.

DR. TUTT'S CELEBRATED EXPECTORANT NO MYSTERY HOW IT ACTS.—First, it detaches from the bronchial or wind tubes the mucus or matter which, sometimes adheres to them with the tenacity of glue. Secondly, it mitigates the pain and removes the constriction of the bronchial tubes and muscles of the chest. Thirdly, it resists the progress of inflammation and assists the lungs to throw off the irritating matter which accumulates.
oct24-dlw

IMPORTANT DISCOVERY.—Galileo invented the telescope; Columbus discovered a new world, and to Professor Morse is due the credit of teaching the lightning how to talk, but it was reserved to Dr. J. Bradfield to penetrate the mystic depths of science, and drag therefrom the wonder of our century. The victory has been won, and woman is free.

The sale of Dr. J. Bradfield's Female Regulator is unprecedented in the history of popular remedies, and thousands of certificates are coming in from grateful women, throughout the Union, attesting its powers and applauding its untold benefits to their sex. dtf

OFFICE OF NATIONAL WATCH CO.,
159 and 161 Lake Street,
CHICAGO, Oct. 12, 1869.

Messrs. Lawshe & Haynes, Atlanta, Ga.:

Your letter of Oct. 6th, to Mr. P. S. Bartlett, General Traveling Agent of this Company, wherein you mention that certain statements have been made in your city detrimental to the character of the Elgin Watches, for Finish and Durability, has been referred to me, and I desire to note briefly, in reply, as follows:

1st. As regards the finish of our movements. Upon this point, your own opinion, with the published testimonials of the most practical and experienced watch makers in the country, and the medals and diplomas that have been awarded to them for "perfect construction and fine finish," at eight different State Fairs, within the past two years, should be conclusive to your customers.

2d. As regards durability. The only possible criticism upon this point is, "that the Watches have been but a short time in market, and, although without doubt, they could not have gained the reputation they have without being more than ordinarily correct time-keepers, and of handsome appearance, it can not be known whether they will last." In reply to this, I have to say: First, that the Watches sold by us two and a half years ago, are in as good condition to-day, where they have had proper usage, as upon the day of their purchase. Second, that the use of machinery in the construction of our movements—and that of a superior kind—enables us to use a harder metal for pinions and wheels, than can be found in other watches not constructed in a similar manner, and secures less friction in the watch train, by the greater exactness and uniformity of machine over hand labor, and we know, and every mechanic knows, that watches made upon our American principle, are superior to and will out-last twice over all others.

3d. To settle the point definitely, you are authorized to say to your customers, that if any watch bearing our trade mark shall, with proper usage, within ten years from date of purchase, wear out so as to become useless to the owner, we will give a new movement, of the same grade, therefor.

Hoping this will meet all objections, and enable you to add to the large sales you have already made of Elgin Watches, I am yours, truly, T. M. AVERY,
President National Watch Co.

SIMMONS' LIVER REGULATOR OR Medicine for Dyspepsia, Sick Headache, Chronic Diarrhœa, Affections of the Bladder and Kidneys, Fever, Nervousness, Bilis, Diseases of the Skin, Impurity of the Blood, Melancholy or Depression of Spirits

Most of the ailments here enumerated have their origin in a diseased liver, which is the most prevalent affection in this country, and as in many cases the patient is not within the reach of a physician, it requires that some remedy should be provided that would not in the least impair the constitution, and yet be active and safe. That such is the character of the SIMMONS REGULATOR there can be no doubt, which the testimony of hundreds will establish.

SYMPTOMS OF A DISEASED LIVER.

Pain in the side. Sometimes the pain is felt under the shoulder blade or in the arm. The stomach is affected with loss of appetite and sickness, bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, an be comes pains of a prickly sensation of the skin; his spirits are low; and although satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he discards every remedy. Several of the above symptoms attend the disease, but cases have occurred when few of them existed, yet examination of the body after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the foregoing symptoms appear. It is a purely vegetable compound, is not injurious to the most delicate constitution, and will keep the liver in healthy action if used properly.

Persons living in unhealthy localities may avoid all billious attacks by taking a dose occasionally to keep the liver in healthy action.

Regulator For children complaining of colic, headache, or sick stomach a teaspoonful or more will give relief. Children, as well as adults, eat sometimes too much supper or eat something which does not digest well, producing sour stomach, heart-burn, or restlessness; a good dose will give relief. This applies to persons of all ages.

Many persons, from eating too much, are restless at night, or in day time drowsy, wool-gathering, can't understand what they read, can't keep their thoughts on any one subject so as to reason well, or become fretful. One or two tablespoonful will give relief.

Jaundice.—Take enough Regulator after eating each meal to produce one full action from the bowels every day.

Pregnant ladies will find sure relief from their headache, costiveness, swimming in the head, colic, sour stomach, restlessness, etc., etc.

L. H. BRADFIELD'S COLUMN.

DR. J. BRADFIELD'S

FEMALE REGULATOR,

Woman's Best Friend

THIS valuable Medicine is prepared for WOMEN exclusively, and to be used by WOMEN only. It is adapted especially to those cases where the WOMB is disordered, and will cure any irregularity in the "menses," except in such cases as require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the "monthly courses" from COLD, trouble of mind or like cause, it acts like a charm, by RESTORING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach," flushes of heat about the face, chilly sensations, burning of the eyelids and general restlessness. Taken in time, all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils to the constitution of the woman. The next "turn" comes around and there is no "show," or perhaps the "whites" will appear. There will be some uneasiness about the womb, but very little or none of the natural fluid escaping. The complexion becomes sallow, bowels swollen, a sort of greenish caste about the face, constant dull aching pains in the head, weight in the lower stomach and back, with or without whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, langour, aching across the loins, loss of appetite, pain in left breast, tightness across the chest, cough and guiltiness. If still allowed to go on "green sickness" will be fully developed—the headache becomes severe, with loss of memory, diminishing sensibility, SICK STOMACH, dyspepsia, no relish for food, loss of flesh, increased fluttering of the heart, SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes HURRIED BREATHING, almost SUFFOCATION. The skin is flabby and a "doughy feel." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45, who are brought to the verge of the grave by ignorance or neglect to take the proper remedy. To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly sickness," we earnestly say TAKE DR. BRADFIELD'S FEMALE REGULATOR. A few ounces taken you will at once experience its benefits, and with a little patience you will be fully restored to health.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia. We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN and to be used by Women only.

A trial is all we ask.

DR. J. BRADFIELD—Dear Sir: I take pleasure in stating that some time previous to the late war, I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used, with equal success, on a servant girl of my brother-in law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and seemed cured, up to the time of "freedom." I do not hesitate to indorse your preparation for the purposes for which you recommend it.
Yours truly, JNO. C. WHITNER.

UNIVERSAL LIFE INS. CO.

—NEW YORK—

The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the *Stock* system of Life Insurance, as opposed to the *Mutual* is a low rate of premium for a stated sum insured, which is IMMEDIATE SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is UNCERTAIN, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a *portion* of the excessive and unnecessary premium charged in the first instance

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $3 0 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL, the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—difference, *immediately secured,* in favor of the UNIVERSAL, $3 277

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one-third* per cent. greater, and likewise that a reduction of twenty-five per cent in the rate of premium is precisely equivalent to an *annual cash dividend of thirty three and one-third per cent payable in advance,* or to a dividend of *forty-five per cent.* payable at the end of five years.

By the *Stock* plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan,*" by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are *returned* in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION OR PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact equivalent to a *dividend* of 33⅓ per cent A clause is inserted in the policies issued by the "Universal" in which these results are *distinctly specified and guaranteed.*

The following statistics as to the state of instruction among the Prussian conscripts, have just been published: "Out of 38,607 recruits for the year 1868, 3,240, or 3.72 per cent could neither read nor write. The proportion of those without instruction in the various provinces was: In Prussian Saxony, 0.16 per cent; Rhenish provinces, 0.77; Pomerania, 1.18; Westphalia, 1.88; Silesia, 3.4; Eastern and Western Prussia, 12.56, and Posen, 14.72. In the annexed provinces the figures were—Schleswig, Honstein, 0.15 per cent; Nassau, 0,12; Hanover, 0.23; Hesse, 0.25. Wurtemberg forms a singular contrast to the rest of Germany in this respect. Out of 41,400 men who have entered the military service during the last nine years, only eight were unable to read and write, or 0.02 per cent.

How a Chinese Emperor Gets Married.—The Emperor of China is 15 years old, and is to be married this year with immense pomp, to his first and chief wife—the Empress. He will be simultaneously provided with second and third wives; and from all parts of the Empire victims are being collected to swell the list of his harem. Every Tartan family, we believe, is obliged to contribute its quota. Local selections are first made, and the holocaust is sent to Pekin, where a fresh selection takes place, and a "chosen" number are condemned to a life-long seclusion. They are not allowed to see their relations; many never see their lord and master, and in the event of his death they are still condemned to perpetual isolation and celibacy.

FRESH TESTIMONIALS!

DARBY'S PROPHYLACTIC FLUID!

THE ASTONISHING

Family Medicine!!!

Saved from Death—Read!

Montgomery, Ala., June 28, 1869.

Messrs. J. Darby & Co., 161 William street, New York—*Gents:* Yours, of the 23d, is before me and has attention. It gives me pleasure to say, that my *belief* is, that your "Fluid," under the supervision of a Kind Providence, *saved the life of my youngest child*, some six years ago. The child being wasted to a skeleton, by the effects of teething, and an affection of the bowels therewith. *I had never seen any one reduced so low to recover.*

"Physic" had been tried in vain, until the Physicians stated it was useless. A friend recommended your "Fluid," or ozone, which he stated was one of the component parts of it. I did so, and the *effect was like magic*, plainly discernable *in one hour*, in its good effects, producing quiet and sleep almost at once, where irritation and sleepless restlessness had previously possessed the child to nearly entire exhaustion.

I at first administered it in a small way, 2 and 3 drops in a spoonful of water, and increased it to 6 and 10 drops. It completely checked the bowels, and had the happiest effect, the child rapidly recovering.

I have tried your "Fluid," on animals, with the same effect; both horses and cows, mingling more or less in water, and letting them drink.

I have no hesitation in saying, I believe it a specific for Chronic Diarrhœa, or any violent affection of the bowels.

I would not be without it in my family, under any consideration.

Yours, truly, WILLIAM FOWLER.

Mr. Fowler is a member of the celebrated Banking House of Fowler & Somerville, Montgomery, Alabama.

AND AGAIN!

Read the following letter from Mr. Frank Saunders, a well-known citizen, and brother-in-law of the beloved Bishop Paine, of the Methodist Episcopal Church, South:

189 Broadway, New York, July 29, 1869.

Messrs. J. Darby & Co., 161 William street, New York—*Gents:* About the 10th of June last, one of my children was taken with Scarlet Fever, in its most malignant form, and as soon as I could I procured your valuable disinfectant, "Darby's Prophylactic Fluid." Although it was several days after the appearance of the disease before I began using the Fluid, still, by a free use of it, the disease was not only confined to the one case, but the malignity of that case somewhat mitigated.

During the use of the Fluid, as a disinfectant, in my family it was also, tried in a case of headache, and one of toothache, the results in each case being instantaneous relief. It was afterwards tried in a case of Erysipelas, with almost equal success.

It is due to the merits of this compound, also, to state, that the case of Erysipelas in question, being located in the feet, the Fluid, in its application, was brought in frequent contact with a troublesome corn, on one of the feet, to the utter discomfiture of said corn; for, upon subsequent examination, it had disappeared, and though it was sought for diligently, it could not be found.

I hand you this, hoping it may be the means of inducing others of earth's poor sufferers, to test for themselves, as I did, the great merits of this great remedy.

Very respectfully, yours, FRANK SAUNDERS.

Never was a medicine so universally esteemed and extolled. It never fails. It may be depended on.

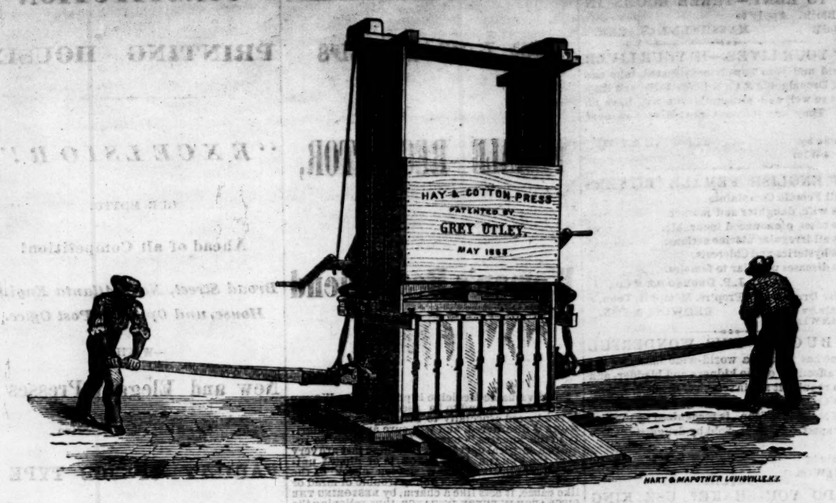
"THE UTLEY COTTON PRESS."



A new invention of power whereby all friction is overcome. The simplicity, economy and durability of this Press astonishes all who see it, and the more so, that a power so simple should so long have been unappropriated. The strain is wholly upon two (2) Iron Bars 1¼ inches square, operating on these bars as if two men were pulling at each end in contrary direction, which will sustain a strain of 190,000 pounds each. With this Press two men can do all the packing or pressing of a 500 pound bale inside of eight minutes, and if need be, one man can operate, only requiring more time. This Press will not occupy more space than a Piano, and can be placed under the Gin and receive the Cotton direct from the Gin, thus doing away with Lint Rooms, and can be readily taken down and transported as it is simple and light. We can supply these Presses cheaper than any yet offered. Will send circulars to any desiring, and would advise all wanting Presses to withhold buying until they examine this. We will, at an early day, have one on exhibition in Atlanta, when it can be seen.

Press complete $175; Irons complete $125.

These presses are now being manufactured in Atlanta, Columbus, Augusta and Macon, and all important points throughout the State, where its workings can be seen. All are assured that as between this Press and any other, there is no argument as to its merits over all others. With the Irons any ordinary workman can put up the Press. ☞ County Rights, Presses, or Irons for sale by

R. P. GLENN, Agent,
At Glenn, Wright & Carr's Warehouse, Atlanta, Ga.

R. P. GLENN, ESQ.—*Dear Sir:* I am so much pleased with the style, make and operation of the Utley Cotton Press, that I have concluded to order one of them from you for my plantation on the Mississippi River.

I do this, notwithstanding I have on my place a large and superior 10 inch Iron Screw Press, which cost upwards of $300 before the war. Believing that the saving of time and space, to say nothing of its superior baling qualities, and by reason of its great power, will more than repay its cost over the one now in use. I do not hesitate to recommend this Press to all who may require one.

Very Respectfully, A. J. HOLMES.
Atlanta, Ga.

R. P. GLENN, ESQ—*Dear Sir:* Having witnessed the operation of the "Utley Cotton Press," the great power exerted at the cost of so little labor which is performed by hand, and the small amount of room it occupies. I feel satisfied that it is as good, if not the best arrangement for baling cotton that has come under my observation, and do do not hesitate in recommending it to those needing a Press.

Very respectfully, C. H. STRONG, of McDaniel & Strong, Warehouse and Cotton Factors, Atlanta, Ga.

ATLANTA, GA., August 31, 1869.

R. P. GLENN, Esq: We have examined very carefully the "Utley" Cotton and Hay Press, as manufactured by you, and are perfectly satisfied it is greatly superior to any other Press now in use. It is simple in its construction, can be readily taken down and moved to where your Cotton or Hay may be, and as readily put up again. There is nothing about it that can get out of order, that a farmer can not himself repair. We have seen it tested and know that one strong man can press a bale much smaller than four mules can on any other Press we ever saw. One advantage is, it occupies so little space that it can be placed close to the tint room, or even in it, and save extra haulling of cotton.

Very respectfully,
H. MARSHALL, Fulton County Agricultural Society.
MARK W. JOHNSON, Guano Merchant.

We, the under igned, having witnessed the operations of the Utley Cotton Press, at the Warehouse of Glenn, Wright & Carr, must say that it is the most simple and powerful we have witnessed. With these qualities are combined economy in space and labor. Mr R. P. Glenn, the Agent, exemplified fully that one man can exert more force in this Press than can be done by four mules on any other. We have no hesitancy in recommending this Press to the farmers of Georgia or in giving it as our opinion that the Utley Press supplies a desideratum long needed.

COLUMBUS, GA., August 31, 1869.

MR. R. P. GLENN: Jordan arrived, with the Utley Cotton Press, by last evening's train, and put it up to-day. A great many went to see it, and looked at it's performances with astonishment. They try to criticise it, but can't pick a flaw in it. They see its great power—y t nothing is strained. Its great simplicity astonishes. All who have bought Screws regret it, and I think many will throw them away and buy the Utley Press. I will at once close contracts for wood works. So send on Irons early as possible. Respectfully
R. B. GUNBY.

ROME, GA., September 8, 1869.

MR. R. P. GLENN: Yours of the 5th received. I am more and more pleased with the Utley Press. As I wrote you, my first bale of rags weighed 900 lbs. The next days (Friday and Saturday,) with two men, I packed 16 bales weighing 700 lbs. Now, I would not, for any consideration, exchange this Press for any other—indeed, I could not get along without it. All who see it are delighted with it. I am now packing my lint cotton with it.

J. J. COHEN.

GRIFFIN, GA., September 18, 1869.

MR. R. P. GLENN: Mr. Rus P. Johnson delivered us the Utley Press yesterday, when we at once put it up in our warehouse, and packed one bale weighing 478 lbs. This morning we packed another bale weighing 545 lbs. each, with only two men—one good man could have done it by himself. Many planters were to see it: all were delighted with it; and two of our largest (Mr. Manly and Mr. Prichard) say they will sell—one an Alexander Press, and other a most improved Screw, for $50, being one-third of their cost—and buy the Utley Press. This, sir, is the Press for the planter—it is so convenient, powerful and simple, and is so easily taken down and put up.

We cheerfully subscribe to the above. RHEA & BOYD.

CORN!

PROLIFIC CORN!

I have a species of Corn which I obtained from a man in Virginia some two years ago. This man and his Corn have been denounced as humbugs. I am not able to say whether the seed I obtained is the "Egyptain Corn" or not, but I do know from having grown it twice, that it is by far the most valuable species of Corn ever planted in this country. I am well satisfied that two crops of this Corn can be produced in the same year in this climate, and I know that on the same land, with the same seasons and culture, it will yield three times as much as any other kind of corn of which I have any knowledge. I have planted it for two years, and have realized large crops, literally without rain. In this exceedingly dry year, if all the farmers of Bartow County had planted this corn, we would have been worth a million of dollars more than we are, and the people would have rejoiced in abundance of bread. I have some of this Corn for sale, and will dispose of it to those who wish to purchase at $6 a peck, delivered to the Railroad Agent at Kingston, Ga.

This Corn can be grown and gathered in this climate by the 15th of August, which gives far more ample time to prepare for and sow wheat, or other small grain on the same land. All orders to receive attention must be accompanied with the money, prepaid. I do not wish to sell less than one peck to any one order. Address me at Kingston, Ga.

J. C. ROPER,
Sept. 28, 1869. Kingston, Ga.

We the undersigned citizens of Bartow county, do certify, that we visited the plantation of J. C. Roper about the 1st of August, 1869, and examined his field planted in the kind of Corn mentioned and described in his foregoing statement, and said field looked fresh and luxuriant, whilst the fields around and adjacent, seemed literally burned up with the drought. We are satisfied that Capt. Roper's statement about the Corn is true, and the undersigned, Lewis Tumlin, has already secured from him, seed to plant a large part of his crop the coming year. We counted twenty-three ears of corn produced from three grains this dry year. In our judgment, it is by far the most valuable Corn ever introduced into this country.

L. TUMLIN,
Cartersville, Ga.
MARK A. HARDIN,
Sept. 28, 1869. Kingston, Ga.

Capt. J. C. Roper, of Kingston, Ga., gave me a few ears of Corn, which I planted on a piece of gray upland. The land was very well prepared, and pretty well matured, and the Corn planted the 7th day of April, 1869. I know, that from the time the Corn was waist high, until it was well glazed in the grain, there never was a "season" of rain upon it, and yet was green and fresh until maturity, and did not seem to suffer from drought. The yield was extraordinary and the Corn attracted the attention of almost every passer by. I am no farmer, and had of course but a small plat of ground planted in this Corn, but if my judgment is worth anything, I can say, that if I had planted this Corn altogether, I would have made, in this dry year, three or four times as much Corn as I did.
